

Seneca River, Mont., April 18/26

Dear Eddie; -

I've thought of you so many times Eddie, and your many, many troubles. I can not say that I was surprised about Alma, I didn't see how any one could look like she did and not have some thing very serious the trouble with her. I never saw any one look much worse and weak.

I am very sorry for her, and for you all, wish I might help you in some way, but I can see no way -

I don't see how she can get well and be away from her children, but one can do wonderful things if it is necessary, and in her case we know that it is necessary.

I shall write to her soon, I haven't done so as I didn't feel that I could or would write to her hastily, and I've been doing things in very much of a hurry, I've been very busy since

I came home, as I was in bed myself nearly five weeks, I find things rather complicated, and I don't feel real well yet.

Max left the hospital a few days ago, he went to George Nollari's for a few days, then he will go to Cliffs. Dr. Strain said he would need to stay at Graces about 5 weeks yet to have his head dressed, it surely takes a mastoid a long time to drain, but I think that he is in very good care. I hear Strain praised so much as a specialist and Maynard is watching over him too. Oh it's nice to have him recovering, that dear little, shy boy of mine. They sing his praises at the Columbus, they say even nicer things of him than I could have hoped for. I shall be so happy to have my dear old Chap once more.

And how is your boy? Is he getting strong and does he seem to be all right? Wish you could find time to write me just a card, Eddie. It will be a year the 25th, since our dear Marquette died. How we miss her! The folks are fairly well. With love to you all, Grace G. Carroll

floor how are you every
way I hope you are getting
all of for I no the time
seems long to you not
getting to see those babies
I was dreaming of you
last night but I have
been thinking of you so
much and saying I
was going to write and
that was on my mind
so strong when I went
to bed then I dreamed of
you. Helen's parent been
well this summer. The
Dr. said she was in the
first stage of Diabetes

and her system was all
run down and her heart
was weak. she has loosed
bad every since Thos

say I wish you could
see them They look
just a life and luscious
little fellows but they
sure had a time this
spring they first Clayton
had Prunoid then they
had chicken pox, measles
hooping cough then wound
up with both of them

was going to happen next

 I get so tired looking
 at the people and traffic

That I don't no what to do
Well almad I hope you are
getting along and can
come home. When sis
wrote to me about Thor
taking you away I just
set down and cried

much good. Well almad

he would love to see
you. so write and
